5 Orientation Modules

New Student Orientation

ARRRGH, Matey! Welcome Aboard!

The goal of this online orientation is to connect you to ECU, provide tips to be academically successful, and introduce you to campus resources. Each will help support your success as a new Pirate. This is designed so you will move from one topic to the next and take about 3.5 hours to complete.

There are 5 areas of content included that are certain to support your success at ECU. Plan to review each one of them carefully: Transitions, Academic Requirements, Taking Care of Business, Campus Living and Dining, and Connect. At the bottom of each page you will have directional arrows to move you forward and backward.

Throughout summer we’ll host sessions that will help you learn more about ECU and how to Connect to the university. We’ll also have chats available with the Orientation Assistants and members of the campus community that will allow you to ask questions about what to expect when you get to campus.

HISTORY
(choose one)

It is strongly recommended that you take ONE of these courses during your first semester.

An online placement test for Spanish is mandatory—even for those who wish to enroll in level 1001. The test can be found here. Click on the "Spanish Placement Test" to create an account and start the test.

An online placement test for French and German is optional and can be found here. Click on the "French" or "German Placement Test." Students with previous experience should take the test in order to start at a higher level. Level 1001 is for students who have never had the language.

Students who wish to take Japanese, Latin, Greek, and Russian who have no previous experience with the language can start at level 1001 (no test required). There is no online test for these languages. If you have previous experience in any of these languages, you can work with faculty on placement. Please visit this link to contact appropriate faculty.

Students who take the placement test receive bypass credit without a grade, only upon successful completion of the course in which they place, as follows:
- Upon passing 1002, students receive bypass credit for 1001.

Note: Do not attempt to register for a language class immediately after taking the Placement Test. If you take a Placement Test, you will have to wait for an email confirming your test score being recorded with ECU before you can register for a foreign language course. It takes approximately 3 business days to enter placement test scores into the university database.

Step 3: In addition to the courses listed in Step 2, complete your schedule by registering for additional courses from the options below. Remember to register for at least 12 semester hours of courses for tuition and financial aid purposes.

Advanced Placement Credit

– Scores should be received by mid July from College Board
– https://admissions.ecu.edu/placement-credit/
Schedule Basics

- Most of your fall schedule will consist of General Education requirements (and maybe 1-2 major courses)
  - Early college credit opens the door to exploring double majors or minors

- Course designations *(can take one level above)*
  - 0001-0999 Remedial (example: MATH 0001, MATH 0045; do not earn college credit)
  - 1000 level Freshmen (ENGL 1100, HIST 1030, PSYC 1000)
  - 2000 level Sophomore (ANTH 2000, ECON 2113, SOCI 2110)
  - 3000 level Junior
  - 4000 level Senior

- Most degree plans require **120 hours** to graduate (30-60-90-120)
  - Freshmen = 0-29 hours
  - Sophomore = 30-59 hours
  - Junior = 60-89 hours
  - Senior = 90+ hours
Course Load

• The *typical* course load per semester
  – 14-16 hours *(Finish in Four Years)*
  – Most courses are 3 s.h. but some courses may be 1 or 2 (Science labs, Health, Kinesiology)

• What is considered *full-time*?
  – 12-18 How much/little you take, is up to you and your comfort level
  – If you are bringing in college credit already, you can afford to take a lighter load of 12 hours in fall to get adjusted to college.
  – Do not assume you can graduate in 2 years if you are bringing in an associate’s degree (60 hours) because it will depend on how far along you are in your *major* courses.
